

AMENDMENTS TO THE DRAWINGS:

The attached sheet of drawings includes a change to Fig. 3 and replaces the original sheet including Figs. 3-5.

FIG. 3 – plane P has been inserted.

REMARKS

Claim 1 has been amended to incorporate the subject matter of claim 10, which was indicated as being allowable in the final rejection. That subject matter has been supplemented to recite that it relates to additional incision portions that do not form an angle β (or stated otherwise, where $\beta = 0$). An example of such an additional incision portions can be seen in Figs. 5 and 5 which form opposite inclinations γ with the plane P (see also the first two full paragraphs on page 12 of the specification).

The specification has been amended to provide a reference letter P for that previously-disclosed plane, and Fig. 3 is to be amended to show that plane. (Note: the vertical line shown in Figs. 4 and 5 as forming the angle γ with the incision coincides with a plane that is parallel to the plane P.)

In light of the foregoing, it is submitted that the application is in condition for allowance.

Respectfully submitted,

BUCHANAN INGERSOLL & ROONEY PC
